## Description

---

This Lagoon 400 is a fully refitted sailing catamaran, upgraded in 2023 and further improved in 2026, ideal for coastal and offshore cruising, offering a rare level of equipment and reliability.

It is powered by twin Yanmar 30 HP engines with approximately 210 hours, with recently replaced engine batteries and wiring, ensuring safe maneuvering and reliable motoring. The boat has been carefully maintained and significantly upgraded.

In 2026, an additional refit program was carried out including a new 25 kg Spade anchor, full windlass service with Bluetooth control, complete refurbishment of the electric Harken winch and replacement of genoa tracks and sliders, improving overall handling reliability.

The sail inventory has been upgraded with a new 36 m<sup>2</sup> genoa and a new 75 m<sup>2</sup> Code 0, providing excellent sailing performance across all conditions.

Safety and structure have been reinforced with rudder stock replacement, structural repair on starboard side, new automatic bilge pumps, and full black water tank cleaning with hose replacement.

Onboard comfort has been significantly enhanced with a new stainless steel freezer, new plumbing fixtures, new starboard toilet, and new fresh and seawater pressure pumps. The interior has been refreshed with saloon repainting.

Autonomy is improved with a watermaker fitted with a new pump, allowing efficient freshwater production.

The cockpit benefits from a new winter enclosure and new helm
