Description

Spectacular motorboat that will make you feel like you're flying over the sea like you've never experienced before, and that allows you to go where other boats can't thanks to its shallow draft.

Thanks to its V-shaped hull, it sails smoothly over the waves.

If you look at the first photos when the boat was delivered, not the entire deck was made of teak, but only the cabin area was made of natural teak. At the end of the first summer, the boat was sent to the shipyard to lay synthetic teak on the entire floor around the deck of the cabin.

The engine hours are 30 hours, there is still warranty.
