## Description

---

The Baron 38 by Baron Yachtbau (1993) is a robust, reliable aluminium yacht – built for long journeys and rough conditions. The stable hull ensures safety and seaworthiness, even when the weather changes. Despite her compact length, she offers a surprising amount of space below deck, with a well-thought-out layout, generous galley and plenty of storage space.

A ship with substance and soul – ideal for those who have more than just day trips in mind.

The entire construction of the ship was carried out under the supervision of Germanischer Lloyd, and was also accepted by it.
