Description

The interiors, bright and elegant, are furnished with light woods in Canaletto walnut, chocolate-brown leather and white lacquers, for a warm and sophisticated atmosphere. The large open-space that combines the upper saloon and dinette is separated from the control area by a large TV screen, a solution that guarantees privacy but allows splendid natural light to filter through the large side windows and the windscreen.

The engines, perfectly maintained and in full efficiency, allow the yacht to reach a maximum speed of 38 knots with surprising acoustic comfort.

With its 26 meters, large living spaces and numerous relaxation areas, this yacht is perfect for long-range cruising as well as for daily life on board.

Numerous refitting and maintenance works have been carried out, including;

Improvements on systems and comfort:

New MTU Engine Screens

New VHF radio

New seawater pump

New extension piston for the gangway

Complete upgrade of the air conditioning system:

New fan-coils under the helm seat, in the port saloon and in the crew cabin

Main unit with 4 compressors

New circulation pump
