## Description

PRINCESS V70 – 2006 – Major Refit Over €250,000 Since 2021 – Twin MAN V12 2 × 1,360 HP

We are proud to present this outstanding Princess V70 from 2006, an iconic model from the renowned British shipyard Princess Yachts, celebrated for its build quality, generous volumes and high-performance cruising capabilities. This yacht stands out for its exceptional maintenance history and an extensive refit program exceeding €250,000 since 2021, with survey report and full invoices available upon request.

### Engines & Performance

The yacht is powered by twin MAN V12 diesel engines producing 1,360 HP each, delivering a total output of 2,720 HP, inboard shaft-drive configuration. The engines show 2,850 running hours and have been professionally and meticulously maintained.

Major mechanical works carried out include:

Replacement of all four turbochargers (since 2021 – approx. €50,000)

New propeller shafts (2024)

New bow and stern thrusters (2024)

New batteries (2024)

New anodes (June 2025)

Seacocks and through-hulls inspected

This propulsion package ensures strong performance, excellent reliability and outstanding manoeuvrability, enhanced by hydraulic trim tabs, electronic engine controls, and 5-blade nickel aluminium bronze
