54 900 € ALL TAX INCLUDED

Description

Bénéteau Oceanis 311 – Freedom, comfort and sailing pleasure in one complete yacht

The Bénéteau Oceanis 311 is one of those ships that charms you from the first moment. Compact in size, but big in possibilities. An ideal yacht for sailors looking for comfort, reliability and freedom on the water.

What makes this version really special is the keel centerboard – the solution for those looking for maximum freedom of sailing. Thanks to the variable draught, you can effortlessly run dry on the mudflats, look for sheltered anchorages or enter shallow harbors where other ships have to drop out. This makes this Oceanis 311 not only suitable for open water, but also perfect for adventurous trips in tidal areas.

Inside you will find an attractive and warm interior with a surprising amount of space for its dimensions. Everything is designed to make your stay on board as pleasant as possible – whether you are going away for a weekend or a longer trip.

The ship has recently been fitted with new sails (mainsail and genoa from 2023), which provides fresh performance and extra sailing pleasure. In addition, all air ducts and transits will be renewed in 2024, contributing to a healthy and well-ventilated living environment on board. The navigation instruments date back to 2015 and provide reliable support during all your travels.

The Oceanis 311 is known for its seaworthiness, easy handling and comfortable sailing characteristics. Add to that the flexibility of the keel centerboard, the recent sails and technical innovations, and you have a yacht that excels in versatility and sailing pleasure.
