Description

Born from an unusual twinning between the iconic Riva and the American Bertam, the 25' Sport Fisherman is a boat that actively participates in the transition between eras. We are towards the end of the 60s and Riva, under Bertram license, produces a motorboat that is innovative in its own way, with easy spaces, now intended to facilitate movement, to offer ample space, rather than limiting users to the role of passenger only.

Developing the original Bertram project, Riva adapts the spaces here to Mediterranean needs, creating a boat closer to Italian boating and the consequent uses. The cockpit thus exploits the two bonnets of the engines – V Drive pillars – and creates a practical and comfortable sundeck that, when not in use, can be folded on itself, leaving the cockpit free.

This Sportfisherman has always been a lake, since 2021 the 4 summer months at sea and winter storage in the shipyard.
