

SALE PRE OWNED

italcraft X 33

45 000 € ALL TAX INCLUDED

Description

The Italcraft X33 is a boat produced between the late sixties and seventies in all 80 units (of which only 40 in the Fly version). By the admirers of the Gaeta shipyard, the X33 model is one of the most successful boats. The deep-V marine hull is entirely built in armored plywood with a very sturdy supporting structure.

This example for sale is in excellent condition as it was totally and faithfully restored in 2018 thanks to the passion of its expert owner. The important and meticulous intervention carried out has been the subject of several awards by some specialized publications in the sector.

Among the countless works carried out are:

- new fly roof
- reconstruction of side exhaust boots

The engines have been landed and completely overhauled (200 engine hours).

The only boat on the market in these conditions. A boat with an excellent quality/price ratio and low maintenance costs. More information available on request.

The profile appears compact and characterized by the line of the inverted horse typical of the smaller Sarima. The aft swim platform leads to the spacious cockpit which can accommodate a comfortable table for meals outside. A staircase leads to the flybridge equipped with pilot's seats and external wheelhouse quickdraws. Entering the internal dinette, on the starboard side there is a cozy L-shaped sofa while on the opposite side there is a small but functional bar cabinet equipped with fridge and sink. Proceeding towards the bow is the wheelhouse
