Description

GRAND BANKS 50 from 1973 powered by 2 x 195hp Cummins V504.

The starboard engine was rebuilt in 2020 and the port engine was changed in 2021.

It is a family boat used as a second home.

A great deal of work has been carried out by its passionate owner.

The varnishes of the interior floors have been redone. The walls of the corridors have been repainted.

The starboard cabin has been modified with a double bed.

There has been no major transformation of the interior except for the master cabin which has been redesigned.

Teak has been added to the flybridge and front passes. The rear platform has been re-decked. The structure of the flybridge has been redone as well as the floor of the passageways. Some of the portholes have been redone and others need to be redone.

The refit is carried out every year
