

SALE NEW

iron 707

57 430 € All Tax Included

## Description

---

Bareboat price without option.

Boat in the catalog (not in stock), configuration possible on order.

With its unique side fenders integrated into the hull (IRON FENDER), inspired by modern ships and aircraft, IRON boats have a character of their own. Even at dock, IRON boats do not go unnoticed. The design of the side fenders with air channels dampens movement, resonance noise and lowers the center of gravity.

The IRON 707 measures 7.12m long for 2.44m, it is offered with engines ranging from 150 to 250HP.

The speeds recorded range from 40 to 50 knots depending on the engine installed, enough to ensure sporty navigation!
