## Description

---

1998 J/120 – High-end cruiser-racer, ready to sail

This 1998 J/120 is an excellent example of what J Boats does best: a true cruiser-racer – fast, light, safe and pleasant to live aboard. The boat has benefited from major recent structural works, as well as a complete upgrade of rigging, sails and safety equipment, making it a particularly reassuring choice for anyone looking for a high-performance yacht with no hidden surprises.

The boat is owned by a French company, which means that, in the event of a purchase by a VAT-registered European company, VAT on the acquisition can be reclaimed/deducted.

Construction and hullThe hull and deck are built in high-tech balsa / GRP sandwich, using the “Scrimp system” vacuum process, renowned for its stiffness, low weight and durability. Hull and deck were moulded by TPI Composites (USA), with construction completed by J Composites in France, ensuring a high-quality level of finish.

The deck has a two-tone non-skid surface. The hull is finished in an elegant “Flag Blue” gelcoat with white cove line and waterline.

Recent major works:

Complete scraping of the hull and full preparation of the underwater sections.

Keel-to-hull joint completely rebuilt by a professional.

Interior linings/headlinings recently renewed, providing a clean and healthy interior.

The lead keel is bolted to a substantial moulded keel stub, and the boat is steered by a balanced spade rudder on an anodised aluminium
