Description

A concentrate of pure and advanced style as well as superior marine qualities. A boat with a sporty style, capable of brilliant performance but faithful to the shipyard's tradition, especially in terms of class and elegance. The Nuvolari & Lenard studio has developed a very advanced stylistic idea that manages to integrate the sophisticated cockpit protection awning without compromising the line or ergonomics of the driver's seat. The hull design was entrusted to Victory Design, a team with great experience in top powerboat competitions. The structures, engineering and industrialization were carried out by Studio Besozzi Selvetti. Spider rigorously preserves all the stylistic features of the range: long foredeck, large sunbathing areas, equipped outdoor living. The interiors, carefully finished thanks to the legendary craftsmanship of the shipyard's craftsmen, are characterized by a large saloon with kitchen, a real owner's suite in the bow, with bathroom and separate shower. Minna is a Sarnico Spider kept in perfect condition by the owner and his captain. A boat to see.
