italboats Predator 570

17 000 € ALL TAX INCLUDED

Description

The Italboats Predator 570 is one of the most successful models of the Italian shipyard, standing out for a perfect balance between compact dimensions and high-level nautical performance.

Built with high-quality Hypalon Neoprene tubulars, this 5 meter and 70 centimeter inflatable boat offers superior resistance to atmospheric agents and durability uncommon for its category.

The deep-V hull is the real heart of the project, specifically designed to cut through the wave softly and ensure dry sailing even when the sea is not perfectly calm.

On board, the organization of space is extremely rational and favors passenger comfort: in the bow we find a large modular sundeck that hides generous lockers for storage, while the center console, with a modern and aerodynamic design, allows smooth and safe side passages.

The helm station is ergonomic and offers excellent visibility, supported by a lumbar seat that optimizes deck space.

Towards the stern, the full-beam sofa comfortably welcomes guests and can often be transformed into a second relaxation area, while facilitating access to the motorized platforms that make getting out of the water simple and safe.

Ideal for both the family and those looking for a robust inflatable boat for fishing or dynamic pleasure.

Main accessories: Stainless steel rollbar type awning - Sundeck extension - Double fuel tank - 2025 battery - Stern platforms - Folding seat in stern sun giver - Bluetooth stereo
