saxdor 270 gto

99 800 € EX. VAT

## Description

---

The Saxdor 270 GTO has been designed according to the Saxdor philosophy, with a lightweight double-redan hull that behaves softly on the water. This model offers the performance, speed and fuel efficiency that previous versions have been known for. The inverted bow with a very deep V-shaped entry reduces the impact with the waves, improves the overall stability of the boat and makes driving more enjoyable. The light and robust construction, made with the vacuum infusion technique, allows you to have a boat that can be easily trailered and simple to launch or recover. The 270 GTO is the ideal choice for those who love the sun: thanks to the two sundecks – one at the bow and one at the stern – you will have ample space to relax. The rear sundeck, if necessary, can be reconfigured into a comfortable dinette. Contact us for more details
