## Description

---

The Saxdor 400 GTC is designed for dual outboard engines and uses an exclusive naval architecture, ensuring a memorable sailing experience. The main deck features an innovative design with a full-width wheelhouse, optimising interior space. Compared to the GTO, the GTC adds a touch of luxury thanks to the large insulated glass surfaces, which create a bright and welcoming environment, protected from the elements. The layout allows for a direct connection to the side terraces, for a relaxation experience similar to a private island. Below deck, two stairs lead to the double cabins – forward and amidships – which share a bathroom; An optional third bed for children is also available. Every detail is designed with elegance and functionality. Contact us for more information.
