lagoon 620

1 200 000 € ALL TAX INCLUDED

Description

The Lagoon 620 is an excellent sailing catamaran, designed for blue-water cruising, long crossings and an autonomous, safe and comfortable life on board. We are talking about a solid, marine and mature unit, designed for demanding owners looking for reliability, space and energy independence, without compromise.

This version stands out for its extremely complete equipment and technical management geared towards long-range sailing. The vessel is fully equipped for ocean navigation, with professional B&G instrumentation, MF/HF communication systems, satellite phone, Navtex and redundant helm stations. Nothing is missing on board: Starlink for high-speed internet even offshore, video surveillance, advanced security systems and lifestyle equipment of a true super-cat

One of the great strengths is autonomy: a solar panel system installed in 2025, flanked by an advanced battery system and double generator, which allows you to drastically reduce the use of engines and live the boat at anchor for long periods. Added to this is a high-capacity watermaker capable of producing over 1,000 liters of water in 4 hours, ideal for prolonged navigation and intensive use.

The flybridge represents a real outdoor living area, well protected and perfectly equipped, while the teak cockpit offers large and functional spaces for life on board. The sail equipment includes Code 0, spinnaker and standard sails, making the Lagoon 620 efficient and pleasant even in light airs.

For leisure, the boat offers a wide range of sea toys, including
