

SALE PRE OWNED

**nautor swan Swan 62 fd biancospino 940 000 € ALL TAX INCLUDED**

## Description

---

Swan 62 FD "Biancospino", delivered in 2005 and designed by Germán Frers, is a performance cruising yacht built to traditional Nautor Swan standards, featuring a GRP hull with Kevlar reinforcements.

This yacht is a highly customised example, conceived for long-range cruising and easily handled short-handed. The twin-cockpit layout provides a clear separation between sailing operations and guest areas, while the stern tender garage and folding bathing platform enhance onboard practicality.

From 2018 onwards, "Biancospino" has undergone significant technical upgrades, including a new Cummins engine, renewed teak decks, a lithium-based Victron electrical system, inverter chiller air conditioning and a watermaker. The carbon mast and Park Avenue boom by Offshore Spars, recently repainted, contribute to maintaining strong sailing performance.

The interior, finished in satin honey-coloured teak, offers a three-cabin, three-en-suite-heads layout, with a full-beam owner's cabin featuring a centreline double berth and separate shower. The galley is well suited for extended cruising, equipped with household-size appliances and generous storage capacity.

"Biancospino" is a solid opportunity for an owner seeking a true blue-water Swan, well maintained and properly equipped, with a technical specification already aligned with demanding offshore cruising programmes.
