galeon 335 hts

244 500 € ALL TAX INCLUDED

Description

The Galeon 335 HTS (2017 build / 2018 model year) is a sporty hard-top cruiser well known for combining performance, comfort and high-quality fit and finish. With its elegant profile, protected cockpit and well-designed interior layout, it suits both day trips and coastal cruising with family or friends, especially in Mediterranean waters. This unit stands out thanks to a strong equipment list and reliable diesel power, offering enjoyable handling while keeping running costs under control.

Power comes from twin Volvo Penta D4 diesel engines, 260 hp each, paired with Z-drive propulsion. The engines show approximately 300 hours only, which is low for this type of setup. This configuration delivers easy handling, comfortable cruising and strong performance, with a lively cruise speed and ample power reserve when required. Harbour manoeuvres are made significantly easier thanks to the bow thruster, a key feature for stress-free docking and tight marina situations.

On deck, the cockpit is designed for sociable cruising, featuring a comfortable seating area with cockpit table, sunbathing spaces and easy circulation to the bathing platform. The hard-top provides excellent shelter from sun and wind while keeping an open feel thanks to its opening sections and bright atmosphere. Teak cockpit/deck enhances the premium look and feel. The bathing platform with ladder allows easy access to the water, complemented by a cockpit shower for rinsing after swimming. The boat is equipped with an electric windlass and anchor, making anchoring simple and comfortable. Trim tabs help optimise running attitude depending on load and sea
