di donna Serapo 33 classic

115 000 € ALL TAX INCLUDED

## Description

---

The Di Donna Serapo 33 Classic is a boat designed for those looking for solidity, reliability and real comfort, without chasing passing fashions. It is a balanced project, built with criteria, which still today represents a concrete choice for those who want to navigate safely and with ease of management.

This unit is equipped with a 1000 W Lofrans Cobra electric winch, an important plus for managing the anchor in total autonomy. The presence of the black water tank and the bivalent boiler makes the boat fully compliant with the regulations and suitable for multi-day cruises, even with family or guests.

The exteriors are one of the real strengths: teak in good condition, well maintained and of great aesthetic impact, and above all the splendid fixed hard top with rollbar, a rare and highly requested option. This configuration guarantees protection from the sun and wind, significantly improving navigation comfort and use in all seasons.

The cockpit is rationally organized, with a welcoming outdoor dinette, ideal for lunches, aperitifs and life on board. The helm station is protected, clearly visible and functional, designed for safe driving even with a small crew.

The Serapo 33 is an easy-to-handle, marine and very balanced boat, perfect for coastal cruises, long weekends and continuous use. A concrete proposal, with the right equipment and an aesthetic that does not age.
