799 900 € ALL TAX INCLUDED

## Description

---

Princess 49 fly, a motoryacht that represents the perfect balance between the technological innovation of IPS propulsion and the solid tradition of the Plymouth shipyard, distinguishing itself as one of the first models designed entirely around Bernard Olesinski's deep-V hull to optimize the efficiency of the Volvo Penta D8-IPS 700 pods (2x550 mhp), characterized by the revolutionary layout with galley at the stern. The boat creates a fluid environment between the saloon and cockpit, enhanced by the large side windows that guarantee extraordinary natural light throughout the living area. With a top speed of 32 knots and an ideal economic cruising at 2400 rpm (about 24 knots with optimized fuel consumption of 120 l/h total), this model ensures smooth sailing and precise maneuverability via joystick, making every mooring phase simple. The interior configuration includes three cabins, including the full-beam owner's suite, double VIP cabin in the bow, third guest cabin with bunk beds, while on-board comfort is guaranteed by the preparation or installation of the Seakeeper 6 stabilizer, supported by the 11 kW ONAN generator. Equipped with a 400 kg electro-hydraulic platform and a spacious flybridge complete with wet-bar, the 2017 Princess 49 is a mature and technically advanced yacht, ideal for those looking for high performance and superior space in a size that is still easy to manage.

Navigation equipment:

AIS, Radar Antenna, Electronic engine control, 4 GPS (Garmin), Joystick, Co-pilot seat.

Staging and technical:
