Description

The Dariel DTS is a high-end inflatable boat designed for those looking for high performance, comfort and sporty style without compromise. Taut lines, an offshore hull and a smart layout make it an ideal choice both as a fast cruiser and as a prestige tender or chase boat. The setting is decidedly sporty, with large sunbathing spaces, a well-organized living area and a protected and functional helm station, designed to tackle navigation even in demanding conditions while always maintaining a high level of comfort. This unit, year 2016, is equipped with three 400 hp Mercury outboard engines, a configuration that ensures brilliant acceleration, great safety and smooth navigation even at high speeds. The boat has been excellently maintained and is accompanied by an appraisal carried out in August 2024. Do not hesitate to contact us for more information.

Navigation equipment:

On-Board Computer, 2 Display (Raymarine A75), Consumption monitor, Chartplotter (Raymarine A127), Control panel, VHF Radio (RAY60), Co-pilot seat.
