Description

Chris-Craft has always been considered one of the most important historic shipyards in the United States. In fact, he was one of the first to build boats in series, far ahead of European artisanal shipyards.

The model in question belongs to the Capri series and is very rare as only 786 examples were produced from 1955 to 1960.

The hull is the one used for the famous Cobra model and is soft and dry when sailing at sea.

This runabout, launched in 1959, is in excellent general condition as it has been totally restored by a well-known Italian shipyard specializing in classic boats.

Boat, trailerable equipped with a wooden reservoir and easy to transport. It is equipped with an original wooden ladder, perfectly preserved original upholstery of the time and double boat cover. The 185 hp Chris-Craft V8 engine is original and has been totally overhauled and brought back to 0 hours.
