83 500 € ALL TAX INCLUDED

Description

PRESTIGE 36 – 2001 – EXCELLENT CONDITION – RARE OPPORTUNITY. This 2001 Prestige 36 stands out for her very clean overall condition, strong equipment level and serious technical upkeep, making her one of the most attractive options currently available in her category. She is powered by twin Volvo Penta KAMD 300 diesel engines producing 285 HP each (570 HP total), a highly respected powerplant known for reliability, longevity and an excellent performance/efficiency balance on this size of motor yacht. Engine hours are low for her age at 866.4 hrs, and the shaft-drive setup is widely appreciated for mechanical simplicity and long-term dependability. Propulsion features include 3-blade bronze propellers, and key maintenance has been carried out: brand new PSS shaft seals on both shafts in 2025 (major reliability upgrade), alternator and belt replaced in 2025, and annual antifouling performed every year. Major engine peripherals (exhaust elbow/manifold, heat exchanger, turbo) were serviced about 4 years ago (no invoices available), as well as the hot water boiler, adding further reassurance. On deck, she offers true cruising comfort with a flybridge helm station, spacious cockpit, swim platform with ladder, cockpit shower, electric windlass and a hydraulic passerelle for easy dock access. Navigation electronics are complete (GPS, radar, depth sounder, VHF, compass and navigation hub), and she also features TV and a CD player. Below deck, the interior is bright and practical with two comfortable cabins, one bathroom, electric toilet, and a fully equipped galley. The refrigerator was replaced with a Dometic unit in 2023, and onboard electrical autonomy is enhanced by a 3000W inverter (no
