Description

The Azimut Magellano series is a milestone in innovation with a modern and timeless character, designed for long-range sailing.

One look is enough to feel trembling, immediately feel a great desire to pack your bags and set off for some remote place, away from the daily chaos.

Slow night navigation, great autonomy and a pleasure that finds full satisfaction more during the journey than on arrival. The destination can be secondary, preferably very far away.

A boat with strong "green" connotations with a semi-displacement hull whose name, inspired by the famous Portuguese navigator, evokes the idea of travel, of long stays on board.

Boats from the first to the last designed and built to sail with a comfort that is difficult to imitate for a planing hull.
