Description

The T43 is an intelligent interpretation of the classic trawlers, an extremely efficient yacht with great functionality, designed to sail well and for a long time.

Comfort while sailing is another of the strengths of this yacht. Both indoors and outdoors, there are spaces that are very well cared for from an ergonomic point of view and set up with quality materials. The fittings are extremely accurate and free of smudges, as well as the assemblies and systems, which are easily inspected: nothing can disturb relaxation during the cruise.

The design is characterized by linear windows and generous volumes in the bow sections determined by the choice of an almost vertical bow. The T43 Trawler makes the most of its almost 14-meter hull length and 4.37-meter maximum width.
