## Description

---

Motorseiler ketch armament, unique model, in wood, designed by Ing. Naval Antonio Sala built, under his supervision, in 1972 at the Salani and Cecchi shipyard, completed and launched in 1973.

2 masts and 2 forestays each equipped with a manual sail furler (genoa and staysail), the total sail area is 153 m<sup>2</sup>.

It is made with keel and ordered in oak with a center distance of 20 centimeters, the planking is in iroko entirely screwed and glued with resorcin glue (red glue) with a thickness of 4.5 centimeters.

The engine was landed in 2021 and completely overhauled. Deep intervention that included new silent blocks, engine cradle, alternator and starter. The shaft line was also overhauled in 2023 from 45 mm with replacement of gland sleeve and self-lubricating bushings.

The interiors finished in mahogany, all with an environment at eye level, are divided into 3 cabins, 2 of which are double + single bed and 1 twin with bunk bed for a total of 6/8 beds, 3 bathrooms equipped with electric toilet and a dinette - kitchen equipped with air conditioning with table and large sofas, complete with fridge and accessories. The cockpit, comfortable and sheltered, includes the wheelhouse and 2 large lockers that enclose, one the electrical system and the other an additional freezer, the boiler for hot water and the LPG cylinder.

Overhauled sail plan spring 2025 (Genoa, mainsail and mizzen). New Lazy bags/boom covers.

Rigging overhauled 2021.
