## Description

The FP 44 marks the second release in the latest generation of catamarans introduced by Fountaine Pajot at the end of 2024. Designed as a true floating living space, this 44-foot sailing catamaran places comfort and shared experiences at the heart of life on board. Its modern lines are enhanced by a wider coachroof and sleek hull windows, creating a harmonious and balanced profile. Relaxation areas are thoughtfully distributed between the cockpit, the flybridge, and the forward lounging space, while the twin helm stations ensure precise handling and excellent visibility under sail.

The redesigned nacelle increases onboard volume and storage capacity. A fully retractable glass door, a central galley island, and a forward serving hatch create a seamless flow between interior and exterior spaces, offering comfort and protection in all weather conditions.

### Refined Layouts and Remarkable Space

Available in 3- or 4-cabin configurations, the FP 44 features diagonal aft berths for improved accessibility and redesigned forward sections for enhanced width and comfort.

The Maestro layout elevates the owner's experience with a spacious private suite, customizable with additional cabinetry or a desk area. The forward compartment can also be adapted into a nursery cabin or a dedicated workshop, depending on your cruising plans.

### Electric Hybrid Version – ODSea+

With its ODSea+ technology, Fountaine Pajot integrates an in-house developed hybrid electric propulsion system. This solution optimizes
