Description

QUER Q50 EXPLORER, 2024, Spanish flag, price excluding tax

This carbon composite patrol boat with a carbon sandwich infusion structure is designed for maritime security, rescue, surveillance, and control missions. Measuring 11.98 m in length and 4.25 m in width, it can carry up to 12 crew members and a payload of 5 tons (up to 50 passengers), with a fully loaded weight of 13 tons. The boat has a fuel capacity of 3,000 liters, allowing for a range of 900 nautical miles at a cruising speed of 20 knots, and it can reach a top speed of 54 knots.

The equipment includes a flybridge and a main deck with an office, sick bay, galley, storage spaces, operations room, and radio. The navigation system features dual-band radar, an electronic chart system (ECDIS), GPS, and a magnetic compass. The boat is powered by three VOLVO D6 engines of 440 hp each, with a DPI joystick maneuvering system, and is equipped with a FLIR M232 infrared camera for night vision. The electrical system is 12 V DC.
