rand boats Solara 33

295 080 € All Tax Included

Description

Taking the boating experience to unprecedented levels, the Solara 33 epitomizes Danish design, sustainability, and cutting-edge technology. This revolutionary addition to the market redefines the landscape for leisure boats by breaking down the cost barrier between electric boating and 30ft+ luxury vessels with conventional propulsion.

Featuring an aerodynamically refined hull boasting a 1:20 ratio, this solar-powered day catamaran sets a new standard for efficiency, comfort, and maneuverability, surpassing its gasoline- and diesel-powered counterparts. Stepping onto the 33-foot vessel, reminiscent of a lavish lounge terrace on the water, transports you to a realm designed for extraordinary experiences.
