Description

Bluegame BG42 2021 – IPS 650 – 7kW Generator – Extended Autonomy – 2024/2025 Upgrades

CAP MED is proud to present this outstanding 2021 Bluegame BG42, a premium unit from the Italian Bluegame shipyard (Sanlorenzo Group), designed by Zuccon International Project. A true benchmark in the luxury open yacht segment, the BG42 stands out with its innovative 360° walkaround layout, protected cockpit and exceptional exterior volumes, delivering remarkable comfort both in the Mediterranean and coastal cruising conditions (CE Category B). Powered by 2 x Volvo Penta D6 IPS 650 engines producing 480 HP each and showing only 130 engine hours, this yacht combines strong performance, efficiency and impressive stability. The IPS pod drives paired with the Volvo joystick system provide extremely precise and effortless docking, further enhanced by a Side Power 75 bow thruster for total maneuvering control. The Interceptor trim system automatically optimizes running attitude and improves dynamic comfort at sea. Engines are serviced every two years and benefit from a recent software update. Energy autonomy is a major highlight, centered around a 7 kW onboard generator delivering independent 220V power at anchor or underway, allowing simultaneous use of air conditioning BTU 16000, refrigeration and onboard systems without reliance on shore power. The system is reinforced by 2 x 220W solar panels (2024), a Victron SmartSolar Bluetooth controller, Victron Bluetooth shunt, and a Victron Skylla 24V 80A three-output charger (2025), ensuring optimal energy

Description

Autonomous energy system centered around a 7 kW generator, providing independent 220V power (air conditioning, refrigeration, onboard systems). Supported by 2 x 220W solar panels (2024) with Victron Bluetooth management and a Victron Skylla 24V 80A charger (2025) for fast and secure battery charging. A Dometic unit (2025) automatically manages the three refrigerators depending on the available power source. Integrated air conditioning and 5 kW Webasto heating ensure year-round comfort. air conditioning BTU 16000

Navigation Equipment

GPS	Main Operating System	Radar	VHF
Navigation Compass	AIS	Sonar	Speedometer
Anchor			

Description Navigation Equipment

Helm station fitted with dual 12" Garmin multifunction displays acting as GPS and main onboard system (charting, engine data, radar, AIS). Integrated radar, AIS, fixed VHF, magnetic compass, plus depth sounder and speed log for accurate navigation data. Modern and fully equipped setup suitable for coastal and offshore cruising.

Galley/laundry/entertainment

Microwave	Freezer	Grill	Fridge
Stove	Sink		

Description Of Kitchen Equipment

Optimized cold storage with a Frigonautica stainless-steel outdoor freezer (2024) and smart power distribution for the 3 refrigerators via a Dometic automatic 220/24V box (2025). Perfect setup for long cruising, day trips and extended anchoring, featuring recent upgrades focused on reliability.

Deck Equipment

Windlass	Gangway	Swim Ladder	Hydraulic Platform
Navigation Lighting	Windshield Wipers	Teak Deck Cockpit	Deck Shower
Sunbathing Cushions	Underwater Lights		

Description Deck Equipment

Premium deck setup focused on autonomy and ease of use: hydraulic gangway and hydraulic bathing platform operated via Opacmare stainless control panels (2025), delivering precision, reliability and great ergonomics. Full cockpit enclosure with Crystal clear window covers (2024) plus side shade panels (2024) for complete protection. Anchoring is simplified with the wireless Lewmar chain counter remote control. A highly desirable package for long stays at anchor, effortless daily use and strong market appeal. Bimini with sunshade panels supported by carbon poles covering both forward and aft areas

Safety Equipment / Miscellaneous

Fire Alarm	Life Jacket	Bilge Pump
------------	-------------	------------

Description Safety Equipment

Built for cruising and autonomy: the upgraded energy system (solar/Victron) improves safety at anchor by ensuring reliable onboard power availability. Idromar 130 L/h watermaker (2025) adds an extra layer of safety by securing freshwater autonomy. Standard safety gear should be checked according to the boat's safety category and cruising area.

Description Equipment Fittings

Efficiency and reliability focused: Opacmare stainless control panels (2025) for the hydraulic gangway and platform, wireless Lewmar chain remote Fitted with electric winches at both bow and stern, ensuring smooth, precise and effortless mooring operations.
