pardo yachts Gt 75 - new

PRICE UPON REQUEST

Description

THE NEW FLAGSHIP OF PARDO YACHTS

The new GT75 model is positioned between the Walkaround and Endurance ranges, where the focus on extremely comfortable interior volumes goes hand in hand with the hull lines typical of a high-performance 75-footer. The luxurious and elegant character of the interior will be the perfect setting for the owner who wants to experience the boat as a villa on the sea: spaces and volumes perfectly designed to optimize each corner of the boat, from the living area to the accommodation spaces. For the exteriors, large sundecks and lounge areas on the aft and foredeck will be the perfect terraces to enjoy a privileged contact with the sea.

The GT75 will be built in two different layouts which we call the tender garage version with lots of lounge and storage possibilities and the and the beach version which has a large terrace located on the aft.

TENDER GARAGE VERSION

In the Pardo GT75 Tender Garage, the cockpit layout is designed to accommodate a very large sundeck, aft of the C-shaped seating area: this section elevators electrically when needed, revealing a dedicated garage for the tender. This solution fully reflects the typical approach of the superyacht world, where housing the tender on board is a must-have feature.

BEACH VERSION

In the Beach version of Pardo GT75, the entire aft section can be transformed into an extended terrace overlooking the sea. This is enabled by hydraulically controlled side wings to shape the entire area
