## Description

---

Newly built Luxury RIB, completed in 2026.

This G-Tender OTTO.7 stands out for its sober and contemporary elegance, achieved through a refined colour combination and selected materials. The tubulars, bollards and internal steels are finished in a refined anthracite shade, which creates a sharp contrast to the stone gray of the hull. The same colour has also been taken up on the engine grille, made with a custom paint job that helps to give stylistic continuity and character to the whole.

The cushions are made with anti-UV technical materials, designed to reduce heat absorption even on the sunniest days, ensuring greater comfort on board and keeping surfaces cooler even in the summer sun. The boat is configured almost fully optional and offers everything you need to spend a pleasant day at sea. Among the equipment we find the electric windlass, the refrigerator integrated in the cockpit and the non-slip bands on the tubes, designed to increase safety and prevent slipping during boarding or movement on board.

The console integrates a modern instrumentation with on-board display, which allows you to have all the main navigation information under control in a clear and immediate way. On board there is also a Fusion audio system with four speakers that can be connected via Bluetooth, ideal for accompanying the day at sea with your favorite music, as well as a practical wireless charger for your smartphone. Comfort continues even when anchored thanks to the bow and stern awnings, supported by carbon stanchions: very light, resistant and easy to assemble. The lights integrated into the cockpit also create a
