

SALE PRE OWNED

beneteau Oceanis 54

240 000 € ALL TAX INCLUDED

Description

It is a Beneteau 54 which, thanks to its versatility and large spaces, has been a great success especially in the rental market, available in configurations of 3 or 4 cabins.

From a propulsion point of view, the boat is equipped with a 110 hp Yanmar engine, with about 1360 hours of use and diesel power. Maintenance includes both ordinary and extraordinary interventions. The transmission system is direct, with a three-blade folding propeller, a solution that improves sailing performance. The fuel tanks, made of steel, have a total capacity of 450 litres. The construction is entirely in GRP (fiberglass) for the hull and deckhouse, while the deck combines GRP and teak, offering robustness and a sleek appearance. On the hydraulic level, there is an autoclave and boiler for hot water, while a watermaker is not installed. The electrical system is complete and functional, with voltages of 12, 24 and 220 volts, a 10 kW Onan generator, inverter and battery charger, elements that guarantee autonomy even during long stays on board. The interiors are designed for comfort: they include a double master cabin, two French twin cabins, a sailor's cabin in the bow and three bathrooms complete with shower. The spaces are completed by a large living room, a fully equipped kitchen and the charting room. The on-board equipment is rich and suitable for both cruising and charter: among the instruments and accessories there are VHF, echo sounder, GPS plotter, autopilot and radar. There are also bow thrusters, air conditioning, hydraulic gangway, generator, refrigerator, oven, TV, stereo, winch, winch, safety equipment, awnings and complete sails
