Description

NEW Beneteau Flyer 7 Sundeck: Uncompromising sportiness and comfort

This boat represents the evolution of the modern day-cruiser: agile, sporty, yet incredibly comfortable. The Flyer 7 Sundeck optimises every available centimetre to offer outdoor spaces worthy of superior category boats and a welcoming cabin to extend the pleasure of stopping at sea.

The main strengths of this configuration:

Airstep 2 Patented Fairing: The Beneteau® trademark. This innovative hull creates an air cushion under the hull that guarantees exceptional stability, quick planing entry and smooth sailing even on formed waves, while reducing fuel consumption.

Optimized "Sundeck" layout: A true miracle of space management. At the bow it offers one of the largest sundecks in its class, while the modular cockpit allows you to switch from "navigation" mode to "lunch" mode in a few seconds. The inside cabin provides shelter and storage or resting space.

All this translates into:

Ease of handling: With about 7 meters in length, it is the ideal boat for those looking for a vehicle that is easy to maneuver in port, cheap to moor and simple to manage even alone.

Total versatility: Perfect for water skiing and water sports, ideal for fishing thanks to the free cockpit, and unsurpassed for family relaxation.
