Description

Aquarama, a speedboat that needs little introduction, is considered the most beautiful and desired of all time. A true example of the greatness of Made in Italy design.

This boat is one of only 30 examples in the Super version produced in 1968. The hull belongs to the second series and is characterized by a more accentuated V-shaped hull for smoother sailing thanks to the softer passage on the wave; modifications more suitable for touring hulls.

This example is in excellent general condition thanks to the following work carried out:

- hull brought to wood
- new paint job (22 coats)
- new bilge paint

The original Riva engines were carefully serviced in 2023. Occasionally used in fresh water.
