jachtwerf – Ramona

255 000 € ALL TAX INCLUDED

Description

RAMONA is a rare and authentic Dutch steel motor yacht, designed by B. Klaassen and built as a true one-off, not part of any production series. Launched in 1964 on a design dating back to the 1950s, she embodies the essence of a classic long-range cruiser, combining timeless lines with solid, seaworthy construction.

Extensively refitted between 2017 and 2019, with further upgrades in 2024, she has undergone major structural, mechanical and systems improvements, including hull works and a full overhaul of her original Rolls Royce engines.

A true displacement yacht, RAMONA offers excellent stability, safety and comfort at sea, enhanced by her steel construction and stabilization sails. Her interiors, finished in fine woods, provide warm and well-balanced living spaces, ideal for extended cruising.

Today, she presents as a unique combination of heritage, elegance and reliability, offered in ready-to-go condition.

HIGHLIGHTS

- Classic one-off yacht, not part of a production series
- Extensive structural & technical refit (2017–2019 + 2024 update)
- Fully restored and treated steel hull
- Original Rolls Royce engines overhauled (approx. 300 hours)
- Long-range capability with large fuel and water capacity (~5000 L)
- Exceptionally stable and comfortable cruising performance
- Modern and fully upgraded onboard systems
- Elegant interiors in fine wood finishes
- Maintained with passion for over 15 years by the same captain
