Description

BEAUTIFUL BOAT - AT OUR !!!! SHOWROOM

The 43-footer from the Sarnico Shipyards is the Mediterranean boat par excellence. A luxurious open cruiser that successfully combines agile and sporty lines with an unexpected volume that allows remarkable livability above and below deck.

The interiors, bright and airy, offer a master cabin in the bow with independent bathroom, a saloon with kitchen and a particularly large and comfortable guest cabin, given its location amidships.

Both cabins have an en-suite bathroom, have excellent brightness and ventilation.

The cockpit is characterized by a central control station, L-shaped sofas, sundeck with central passage and retractable table.

The quality of the materials and components, the accuracy and luxury of the finishes are the same as those of the large boats produced by the shipyard. The exciting mix of speed, comfort and safety that characterized the Sarnico 43 models with shaft line is now enhanced in the latest version equipped with IPS propulsion.

The hull, in fact, has been developed to make the best use of Volvo Penta IPS propulsion in order to obtain excellent dynamic performances that translate into high cruising speeds and low fuel consumption within the lowest levels of the category.

Again thanks to the perfect combination of propulsion and hull, the boat reveals incredible agility in navigation. Thanks to the joystick control, it is easy to manoeuvre in any situation and mooring in confined spaces is easy even for those with no experience
