Trade-ins are evaluated

ADAPTABLE BY NATURE

On board the Lagoon 43, the key word is adaptability

Lagoon has imagined a new vision of life on board, presenting a

versatile boat with modular boundaries. This advancement of the

mast makes it possible to transform the space on board the Lagoon

43, allowing the interior and exterior to be connected as desired,

creating a single dimension between the saloon and the cockpit. The

operation is simple and fast to create numerous compositions, which

can accommodate up to 12 people at the table. A new convivial space

has been invented to meet and share a moment in company, with

family or friends

OPENING STERN BULWARKS

For this new Lagoon 43 model, the famous French shipyard has

reformulated the access to the catamaran by creating an additional

opening at the rear of the hulls. The lateral opening of the stern

bulwarks facilitates circulation between the boat and the quay,

combining safety and comfort, with a view to well-being on board.

Thanks to a unique aesthetic signature, this new side entrance of the

Lagoon 43 integrates perfectly with the harmonious and elegant lines
