Description

The first impression you get when looking at the Bertram 450 with its new rounded lines is that it retains the unmistakable Bertram profile. A closer look reveals positive innovations compared to the classic Bertram. The rounded console has spaces for all the necessary electronic and navigation equipment, with protective plexiglass covers and numerous storage compartments. The entire superstructure is built with fluid lines that are very pleasing to the eye. In addition to the engine room, there is a machine room forward for equipment such as generators, pumps and water heaters. With two MAN Hp 900 engines, the Bertram 450 can reach a cruising speed of 28 knots and a top speed of 33 knots. This 450 is a three-cab version, perfectly maintained. Call for more information.
