azimut 68 plus fly

490 000 € ALL TAX INCLUDED

Description

The Azimut 68 Plus is one of the most successful models from the Azimut Yachts shipyard, a 21-metre flybridge that still stands out today for its balance between design, volumes and functionality. This unit is in very well-kept condition, with an aesthetic impact that is still current and a distribution of spaces designed for real use, both private and charter.

The exterior lines are soft and elegant, typical of Azimut's production in the early 2000s, with large glass surfaces that guarantee internal brightness and visual continuity with the sea. The cockpit is large and well usable, connected directly to the teak bathing platform that facilitates access to the water and boarding operations.

The flybridge is one of the real strengths: a large convivial area with dining table, enveloping seats and a sunbathing area, ideal for enjoying the boat outdoors and entertaining guests. The upper helm station also ensures excellent visibility and management when sailing.

From a commercial point of view, it is a product that the market immediately recognizes: correct size, required layout and strong brand.

A concrete solution for those looking for a ready-to-use 20+ meters, with real spaces and a proven structure, without entering into the running costs of the most recent units.

INTERIOR DESCRIPTION

The interiors are one of the key points of this unit: large volumes, functional layout and a construction quality that is immediately perceived in the details and finishes. The main salon is organized on two levels and offers a large and welcoming living area, with double
