cranchi Atlantique 40 fly

150 000 € ALL TAX INCLUDED

Description

The 2005 Cranchi Atlantique 40 Fly represents one of the most balanced solutions in the medium-sized flybridge segment, combining construction reliability, well-distributed space and low running costs. This unit stands out clearly on the market for its general condition: the boat has been maintained in an obsessive manner and has undergone a major refit in 2025, with documented interventions that concretely increase its value and safety at sea.

Among the most important works we find the complete overhaul of the electrical system, the replacement of the bow thruster, the renewal of all the on-board pumps and the overhaul of the toilets. Added to this is the total overhaul of Volvo Penta engines, supported by official invoices, as well as the installation of a new generator set and the overhaul of the air conditioning system. A work package that, translated into concrete terms, means zero interventions to be addressed in the short term.

Full electronics with dual Raymarine GPS, autopilot and eco/log, for simple and safe navigation.

Externally, the boat is clean, tidy and ready for use, with a well-usable cockpit and a teak bathing platform that facilitates every operation on board. The flybridge is one of the strengths: convivial area, sundeck and second helm station, ideal for enjoying the boat during the summer season.

It is a boat ready to the buoy, concrete and reliable, perfect for those who want to get into the water immediately without surprises.
