Striker 34

73 000 € ALL TAX INCLUDED

Description

The light alloy Striker 34 is a legendary vintage American fisherman, renowned for its welded aluminum construction that makes it an "immortal" and practically monolithic boat. Designed to withstand the harshest weather and sea conditions, this hull offers unsurpassed offshore performance and stability, making it an iconic choice for sport fishing, especially trolling. The main feature is the welded aluminum hull, which offers extreme strength while maintaining low weight, ensuring longevity and minimal maintenance. Designed with a "gullwing" hull, it offers a deep seacut that guarantees stability and smooth sailing even in rough seas. The cockpit is specially designed for fishing, spacious and comfortable, and the considerable width offers a stable platform for fishing (both trolling and drifting), giving stability at anchor unparalleled in the category. Despite being a pure fisherman, Albacor offers interiors that can be used for short cruises or for the comfort of the crew, which the owner has taken care of in every detail, giving us a boat worthy of experiencing new and exciting seasons. The Striker 34 is a piece of fishing history, called for any trial.

The Striker 34, built from light alloy, is a legendary vintage American fishing boat, renowned for its welded aluminium construction, which makes it an 'immortal' and virtually monolithic vessel. Designed to withstand the harshest sea and weather conditions, this hull offers unrivalled offshore performance and stability, making it an iconic choice for sport fishing, particularly trolling. The key feature is the welded aluminium hull, which offers extreme strength whilst maintaining a low weight, ensuring longevity and minimal
