## Description

---

The spaces and exterior fittings encapsulate the entire Cayman Yachts philosophy, the Italian brand that was the first to design this type of open-plan boat with Walk Around passages on the covered deck of great comfort and safety. On the outside, the side balconies that can be opened and the outboard motors hidden under the aft sundeck can be distinguished, which allows you to greatly dampen the noise during navigation, but above all you gain precious space that would be "lost" with the engines in sight. As for the interior spaces, they are a true masterpiece of design, quality of detail and functionality, in fact, despite the fact that the boat is very small, inside the modularity of the living area allows you to make the most of the space both day and night, as the two large sofas that characterize the daily area can be transformed for the night into two double beds.

DEMO BOAT TO BE REGISTERED. POSSIBILITY OF LEASING OR NAUTICAL LOAN.
