azimut Magellano 66

2 535 000 € ALL TAX INCLUDED

Description

This Azimut Magellano 66 represents a solid proposal for those looking for a modern, efficient and already configured long range at the top. Launched in September 2021, it is now in excellent condition, with limited use and constant maintenance.

This boat is the EVO version, which introduces a hull that is further optimized compared to previous models: greater fuel efficiency, better stability at semi-planing and planing speeds and a significant reduction in pitch and roll. The result is an extremely versatile boat, capable of sailing in displacement with great autonomy or pushing at higher speeds without compromising comfort and safety.

Configured in the Navetta version, this Magellano 66 is designed for rational management of spaces and flows on board, with a clear separation between the guest area, galley and piloting. The unit is also equipped with a complete set of options that clearly differentiates it from the others on the market: Seakeeper gyroscopic stabilizer, watermaker, full air conditioning, bow and stern thruster, wine cellar, teak all over the deck and numerous other accessories oriented towards comfort and autonomy.

The positioning is clear: a contemporary explorer that combines autonomy, build quality and performance, ideal for owners who want to sail long-range without sacrificing speed and liveability.

INTERIOR DESCRIPTION

The interiors of this Azimut Magellano 66 are designed to offer generous volumes, natural light and a functional distribution of spaces, in line with a real use for long cruises. The main deck houses a large saloon
