Description

This Skipper 34 NC has been used as a megayacht tender, always maintained with professional standards and is now in excellent operating condition, ready at the buoy and immediately available for use. This is a high-performance inflatable boat of about 10 meters, designed by the Greek shipyard Skipper Powerboats with a clear orientation to the offshore world. The deep-V hull with 4-step technology generates an air cushion between the hull and the water, reducing friction and allowing high speeds with great stability and control even at the fastest speeds. With a length of 9.95 meters and a width of 2.90 meters, it offers well-distributed spaces for dynamic daily use. The large diameter tubulars guarantee safety and buoyancy, while the deck layout includes large sundecks, ergonomic seats and numerous storage lockers both fore and aft. The configuration with dual Mercury 300 hp engines ensures outstanding performance, with top speeds in the range of 50-55 knots and ideal cruising between 35 and 40 knots. Under the console there is a toilet compartment complete with sink and shower, a rare and highly appreciated element in this segment.

Navigation equipment:

Rudder angle indicator, Radar Antenna, On-Board Computer (SIMRAD), Chain counter, chronometer, Display (SIMRAD), GPS (SIMRAD), Interface, Joystick, Log (SIMRAD), Autopilot (SIMRAD), Chartplotter (SIMRAD), Plotter with GPS antenna (SIMRAD), Control panel, VHF Radio (SIMRAD), Co-pilot seat.
