Description

The Primatist G 53' Pininfarina is the newest model in the Primatist-Pininfarina series. It was built in the new production hub of Arbatax. The boat occupies an intermediate size between the two previous models, the G 70 and the G 46, but respects their style and technical concepts. The roof of the deckhouse can be opened by electro-hydraulic control and the galley is located in the external cockpit to leave more space for the living room.

The sleeping area consists of three cabins and three bathrooms, a cabin for the sailor with his service.

In the deckhouse there is the large living room and the helm station.

The furnishings are characterized by fine materials and fabrics according to the style now tested on previous models.
