Description

TOP GUN 38 CIGARETTE - 1986

Design: The Top Gun 38 is known for its sleek, aerodynamic design, optimized for high-speed performance on the water.

Power: Typically powered by two high-performance engines, often from manufacturers like Mercury Racing, this model has two more reliable engines, 8.1L V8s developing 425 horsepower each and totaling 650 hours.

Speed: Known for its impressive speed capabilities, the Top Gun 38 is designed for offshore racing and performance sailing.

Cabin: Although this is a performance boat, it often includes a cabin with basic amenities for short trips, making it quite practical for day cruises.

Legacy: The Cigarette Top Gun 38 has become an icon in the world of offshore powerboating and is often associated with luxury, speed and performance. It is a favorite among thrill boating enthusiasts and has maintained its popularity over the years.

This model benefited from an engine refit in 2001.

Unlike the majority of "Cigarette Offshore", this one has a separate toilet, a Bimini, an electric windlass, and teak in the cockpit.

Work on the control panel is to be expected, as is the electronics to be replaced.

Visible in a shipyard in Antibes.
