Description

Not the classic Gobbi 425 SC.

This boat represents a unique project, developed without compromise by an extremely competent owner who, in recent years, has invested very significant amounts of money in a superior technical and aesthetic refitting.

A true Mediterranean Luxury Day Cruiser capable of standing out for its reliability, manoeuvrability, on-board technology and quality of equipment, with interventions that today make it difficult to compare with other models on the market.

The Volvo Penta KAD 300 engine was fully landed and overhauled at 0 hours in 2023, with about 300 hours to date, while the transmission has NEW 2025 stern drives, including a third unit complete with ready-to-use reserve: a very rare equipment that testifies to the level of attention dedicated to the boat.

Navigation is made spectacular by the combination of:

10 Hp bow thruster with joystick

double Quick BTQ transom thrusters of 10 Hp each

automatic satellite ZipWake system installed in 2025

The result is an incredibly stable, precise boat capable of turning practically on itself.

The electronic components are of the latest generation:

Raymarine Axiom RealVision 3D Plotter

Radar Quantum Doppler

NMEA 2000 network

High CHIRP sonar
