Description

WHISPER 54 – New Luxury Electric & Hybrid Powercat

Barcelona Yachting is proud to present the new WHISPER 54, a next-generation luxury power catamaran designed to redefine the yachting experience through quieter, more efficient and more sustainable cruising.

With her 16.45-meter length, contemporary design and impressive living spaces, the WHISPER 54 delivers a unique combination of premium comfort, advanced technology and energy autonomy. Designed for demanding owners seeking a modern alternative to traditional motor yachts, this innovative powercat offers exceptionally silent cruising thanks to its Solar Electric, Solar Hybrid or Eco-Motor HVO propulsion systems.

The WHISPER 54 is available in 3 or 4 cabin layouts featuring a panoramic saloon, premium central galley, विशाल flybridge, hydraulic bathing platforms and generous outdoor living areas designed for life on board and long-range cruising.

The Solar Electric version integrates a Torqeedo propulsion system with 100 kW electric motors, high-capacity battery packs up to 240 kWh and approximately 42 m² of SOLBIAN solar panels, allowing for more autonomous and environmentally friendly navigation. Hybrid and HVO versions also provide perfect adaptability depending on cruising programs and owner expectations.

Equipment levels are exceptionally premium with reversible WEBASTO air conditioning, SMEG or MIELE appliances, SONOS multi-zone audio system, full RAYMARINE navigation package, standard Starlink connectivity,
