cantieri di pisa Akhir 22

350 000 € EX. VAT

Description

This Cantieri di Pisa Akhir 22 represents one of the most authentic expressions of the great Italian nautical tradition, reinterpreted through a complete 2023–2024 refit carried out according to modern and professional construction standards.

Built in 1987 in triple lamellar mahogany, this unit has been completely transformed at Uzmar Shipbuilding in Istanbul through a structural, technical and aesthetic intervention of the highest level. Hull and bulwarks were treated with e-glass and epoxy, teak was completely replaced in 2023 and all seacocks, axles, bushings and hydraulic lines were completely renewed.

The classic Cantieri di Pisa lines maintain all the charm of the golden age of Italian yachting, but with modern technical content and an extremely more reliable setting today. The new redesigned flybridge superstructure offers large convivial spaces with double dining tables that can be combined for 10 guests, a bar area equipped with refrigerator/freezer, electric grill, new bimini top and large sunbathing areas both forward and on the fly. The oversized teak bathing platform also houses an exclusive ultra-light OC 330 full carbon tender with Yamaha 9.9 HP.

From a mechanical point of view, the boat is in particularly interesting condition thanks to the 2 1050 HP GM Detroit Diesel 12V92TA completely overhauled in 2023, today with about 100 hours SMOH. The cruise is around 16.5 knots with consumption of about 180 liters / hour at 1650 rpm, a very competitive value for a planing 22 meters in this category. With the UK flag, the next survey scheduled for 2028 and the last
